| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | Fullerene C70 has a special spherical configuration. Because of the structure, all molecules of C70 have special stability, while a single C70 molecule is extremely hard at the molecular level, which makes C70 possibly as core material of lubricant, ... |
| Molecular Weight           | 840.75                                                                                                                                                                                                                                                        |
| Purity                     | 95%                                                                                                                                                                                                                                                           |
| Form                       | Dark brown or black crystalline powder                                                                                                                                                                                                                        |
