| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | The protein encoded by this gene is a transmembrane glycoprotein belonging to the immunoglobulin superfamily. The external domain mediates cell attachment to the extracellular matrix molecule vitronectin, while its intracellular domain interacts with... |
| Molecular Weight           | 35                                                                                                                                                                                                                                                            |
