| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Cytokine that binds to and signals through the IL1RL2/IL-36R receptor which in turn activates NF-kappa-B and MAPK signaling pathways in target cells linked to a pro-inflammatory response. Part of the IL-36 signaling system that is thought to be prese... |
| Molecular Weight           | 17.1                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q9UHA7</a>                                                                                                                                                                                                                                        |
| Purity                     | 95% as determined by SDS-PAGE and HPLC.                                                                                                                                                                                                                       |
| Form                       | Lyophilized from 0.2um filtered 20mM Tris, 300mM NaCl, pH 8.0, 0.1% Tween 80                                                                                                                                                                                  |
