| Category                   | Biochemikalien                                                                                                                                                                                                                                                                                                       |
| Product Description        | 1,2-Dihydro Exemestane-d7 13C is an intermediate in the synthesis of 1,2-Dihydro Exemestane which is a related compound of Exemestane (E957000). Molecular Formula: C <sub>19</sub> H <sub>19</sub> D <sub>7</sub> O <sub>2</sub><br>Solubility: Acetone, Dichloromethane, Ethyl Acetate, Methanol<br>Molecular W... |
| Molecular Weight           | 306.46                                                                                                                                                                                                                                                                                                               |
| Form                       | Supplied as a Light Brown                                                                                                                                                                                                                                                                                            |
