| Category                   | Biochemikalien                                                                                                                                                                                                                                                                                          |
| Product Description        | 2-Acetamido-5-bromo-4-methylpyridine is used in the continuous exothermix process of nitration. Molecular Formula: C <sub>8</sub> H <sub>9</sub> BrN <sub>2</sub> O<br>Molecular Weight: 229.07 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial ... |
| Molecular Weight           | 229.07                                                                                                                                                                                                                                                                                                  |
