| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | [2,2-Bis(diphenylphosphino)-1,1-binaphthalene]chloro(p-cymene)ruthenium Chloride is used as a catalyst in the asymmetric synthesis of UK 370106 (U700620), an MMP-3 inhibitor. It is also highly effective in the hydrogenation of 2-(6-methoxy-2-naphthyl... |
| Molecular Weight           | 928.87                                                                                                                                                                                                                                                        |
| Form                       | Supplied as a Brownish Yellow Solid                                                                                                                                                                                                                           |
| CAS Number                 | [130004-33-0]                                                                                                                                                                                                                                                 |
