| Product Description        | (2E,12Z)-Hexadeca-2,12-dienal is an intermediate of (4E,14Z)-Sphingadienine-C18 (S680630), a sphingoid base of sea cucumber cerebroside that may have cytotoxicity activity against human colon cancer cells. Molecular Formula: C16H28O Solubility: DCM, ... |
| Molecular Weight           | 236.39                                                                                                                                                                                                                                                        |
| Form                       | Supplied as a Clear Oil                                                                                                                                                                                                                                       |
