| Product Description        | 3-Bromo-beta-methylbenzeneethanol is an intermediate in the synthesis of Ketoprofen (K200800) related compounds. Molecular Formula: C <sub>9</sub> H <sub>11</sub> BrO Solubility: Acetone, Chloroform, DCM, Diethyl Ether Molecular Weight: 215.09 Storage and Stability: Store at ... |
| Molecular Weight           | 215.09                                                                                                                                                                                                                                                                                  |
| Form                       | Supplied as a Yellow Oil                                                                                                                                                                                                                                                                |
