| Product Description        | A metabolite of (-)-Epicatechin (E582260). Molecular Formula: C <sub>11</sub> H <sub>12</sub> O <sub>4</sub> Solubility: DMSO (Slightly), Methanol (Very Slightly) Molecular Weight: 208.21 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial ... |
| Molecular Weight           | 208.21                                                                                                                                                                                                                                                                                              |
| Form                       | Supplied as a Off-White Solid                                                                                                                                                                                                                                                                       |
