| Product Description        | 5-Desfluoro Sitagliptin is a metabolite of Sitagliptin phosphate (S491000). Sitagliptin is a trizolopyrazine dipeptidyl peptidase IV inhibitor. Sitagliptin has recently been approved for the therapy of type II diabetes. Molecular Formula: C <sub>16</sub> H <sub>19</sub> F <sub>5</sub> N <sub>5</sub> O... |
| Molecular Weight           | 487.32                                                                                                                                                                                                                                                                                                            |
