| Category                   | Biochemikalien                                                                                                                                                                                                                                                                          |
| Product Description        | 5-Ethyl-1H-indole-2-carboxaldehyde is derived from 5-Bromoindole (B684540), which is a potential inhibitor of GSK-3. Molecular Formula: C <sub>11</sub> H <sub>11</sub> NO Molecular Weight: 173.21 Storage and Stability: Store at -20C. For maximum recovery of product, centrifug... |
| Molecular Weight           | 173.21                                                                                                                                                                                                                                                                                  |
