| Product Description        | 8-Bromoadenosine 3,5-cyclic Monophosphate is a membrane-permeable cAMP analog. Molecular Formula: C <sub>10</sub> H <sub>11</sub> BrN <sub>5</sub> O <sub>6</sub> P<br>Molecular Weight: 408.1 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to remov... |
| Molecular Weight           | 408.1                                                                                                                                                                                                                                                                                                                |
