| Product Description        | (-)-Asarinin induces dopamine biosynthesis and protects against 6-OHDA-induced cytotoxicity in rats. Effective as synergists for pyrethrins when used against houseflies. Molecular Formula: C <sub>20</sub> H <sub>18</sub> O <sub>6</sub> Molecular Weight: 354.35 Storage and Stability: Stor... |
| Molecular Weight           | 354.35                                                                                                                                                                                                                                                                                              |
