| Category                   | Biochemikalien                                                                                                                                                                                                                                                 |
| Product Description        | Disodium 4-Formyl-1,3-benzenedisulfonate was used in the synthesis of symmetric and asymmetric xanthene dyes which can be used as components of fluorescence-based sensors for imaging applications. It was also used in the synthesis of oxadiazole-based ... |
| Molecular Weight           | 266.254598                                                                                                                                                                                                                                                     |
