| Product Description        | Drosopterin and Iso-drosopterin (Mixture) is an eye pigment found in <i>Drosophila melanogaster</i> . Molecular Formula: C <sub>16</sub> H <sub>17</sub> N <sub>9</sub> O <sub>2</sub><br>Molecular Weight: 367.37 Storage and Stability: Store at -20°C. For maximum recovery of product, centrifuge the original vial p... |
| Molecular Weight           | 367.37                                                                                                                                                                                                                                                                                                                       |
