| Product Description        | Ethyl (4-Methoxyphenyl)acetate functions as 15-lipoxygenase inhibitor. Molecular Formula: C <sub>11</sub> H <sub>14</sub> O <sub>3</sub> Molecular Weight: 194.23<br>Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to removing the cap.... |
| Molecular Weight           | 194.23                                                                                                                                                                                                                                                                                                 |
