| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | Methotrexate-d3 Triglutamate is the isotope labelled analog of Methotrexate Triglutamate (M260725), a metabolite of Methotrexate (M260675) which is a folic acid antagonist, antineoplastic, and antirheumatic. Molecular Formula: C30H33D3N10O11 (C2HF3O2... |
| Molecular Weight           | 715.69                                                                                                                                                                                                                                                        |
| Form                       | Supplied as a Yellowish Orange Solid                                                                                                                                                                                                                          |
