| Product Description        | SB 216763 is a potent and selective cell permeable ATP-competitive inhibitor of GSK3 $\alpha$ . It stimulates glycogen synthesis in Chang human liver cells. Molecular Formula: C <sub>19</sub> H <sub>12</sub> Cl <sub>2</sub> N <sub>2</sub> O <sub>2</sub> Molecular Weight: 371.22 Storage and Stability: Store at -20C. For max... |
| Molecular Weight           | 371.22                                                                                                                                                                                                                                                                                                                                  |
