| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Alkaline phosphatase (AP) is conjugated to Glycine max (Soybean) Lectin (SBA) to show the binding of SBA in many applications including Western blotting and ELISA. Alkaline phosphatase is a large protein (140kD) that catalyzes the hydrolysis of phosp... |
| Purity                     | Highly Purified                                                                                                                                                                                                                                               |
| Form                       | Supplied as a liquid in 10mM HEPES, 150mM NaCl, 0.1mM Ions, 0.02% sodium azide. Labeled with Alkaline Phophatase (AP).                                                                                                                                        |
