| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Biotin is a small molecule involved in a wide range of metabolic processes. This ligand forms a complex with Avidin and Streptavidin, resulting in the strongest non-covalent protein-ligand interaction known. Biotinylated Ulex europaeus Lectin (UEA II... |
| Form                       | Supplied as a liquid. Labeled with Biotin.                                                                                                                                                                                                                    |
