| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | LGALS13 has lysophospholipase activity that act on biological membranes to regulate the multifunctional lysophospholipids. It is composed of two identical subunits which are held together by disulfide bonds. LGALS13 has structural similarity to sever... |
| NCBI                       | <a href="#">037400</a>                                                                                                                                                                                                                                        |
| Form                       | Supplied as a lyophilized powder.                                                                                                                                                                                                                             |
