| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | u6 snRNA-associated Sm-like protein LSm1, also known as LSM1 plays a role in replication-dependent histone mRNA degradation and binds specifically to the 3-terminal u-tract of u6 snRNA. LSM1 protein facilitates RNA protein interactions and structural... |
| NCBI                       | <a href="#">055277</a>                                                                                                                                                                                                                                        |
| Form                       | Supplied as a lyophilized powder.                                                                                                                                                                                                                             |
