| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | POLR2E encodes the fifth largest subunit of RNA polymerase II, the polymerase responsible for synthesizing messenger RNA in eukaryotes. This subunit is shared by the other two DNA-directed RNA polymerases and is present in two-fold molar excess over ... |
| NCBI                       | <a href="#">002686</a>                                                                                                                                                                                                                                        |
| Form                       | Supplied as a lyophilized powder.                                                                                                                                                                                                                             |
