| Product Description        | Source: Recombinant protein corresponding to aa23-193 from Daucus carota 21kD protein, fused to 6X His-Tag at N-terminal, expressed in Yeast. Molecular Weight: ~20.8kD Amino Acid Sequence:<br>APANQFIKTSCTLTTPAVCEQSL SAYAKTIQNNPQELASTALQVSLTRTQQAQTFMKRLN... |
| Molecular Weight           | 20.8                                                                                                                                                                                                                                                             |
| UniProt                    | <a href="#">P17407</a>                                                                                                                                                                                                                                           |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                   |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                               |
