| Product Description        | May play a role in carrying and orienting carbohydrate, as well as having a more specific role. Source: Recombinant protein corresponding to aa25-36 from human CAMPATH-1 antigen, fused to hFc-Tag at C-terminal, expressed in Mammalian cell. Molecular ... |
| Molecular Weight           | 30.1                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">P31358</a>                                                                                                                                                                                                                                        |
| Purity                     | 85% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
