| Product Description        | Source: Recombinant protein corresponding to aa33-119 from Drosophila melanogaster GEO11329p1, fused to hFC-Myc-Tag at C-terminal, expressed in Mammalian cell. Molecular Weight: ~39.2kD<br>Amino Acid Sequence:<br>SNFFDLECKGIFNKTMMFFRLDRICEDCYQLFRETSIHRLLCKKD... |
| Molecular Weight           | 39.2                                                                                                                                                                                                                                                                  |
| UniProt                    | <a href="#">Q9W151</a>                                                                                                                                                                                                                                                |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                        |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                                    |
