| Category                   | Molekularbiologie                                                                                                                                                                                                                                                 |
| Product Description        | Source: Recombinant protein corresponding to aa2-204 from <i>Blattella germanica</i> Glutathione S-transferase, fused to 6X His-Tag at N-terminal, expressed in Yeast. Molecular Weight: ~25.2kD Amino Acid Sequence: APSYKLTYPVKALGEPFLLSYGEKDFEDYRFQEGDWPNLK... |
| Molecular Weight           | 25.2                                                                                                                                                                                                                                                              |
| UniProt                    | <a href="#">O18598</a>                                                                                                                                                                                                                                            |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                    |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH <sub>2</sub> O to a concentration of 0.1-1mg/ml.                                                                                   |
