| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Thyroid hormone-binding protein. Probably transports thyroxine from the bloodstream to the brain. Source: Recombinant protein corresponding to aa23-147 from mouse Transthyretin, fused to 6X His-Tag at N-terminal, expressed in Yeast. Molecular Weight:... |
| Molecular Weight           | 15.5                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">P07309</a>                                                                                                                                                                                                                                        |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
