| Manufacturer               | US Biological                                                                                                                                                                                                                                                   |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                               |
| Application                | ELISA                                                                                                                                                                                                                                                           |
| Product Description        | Control Peptide for A0225-01A (affinity purified antibody) and A0225-01B (antiserum). In cells, excess of metabolic fuel is converted into fatty acids in cytosol and oxidized later in mitochondria to generate ATP and acetyl-CoA. In fatty acid syntheses... |
| Purity                     | Highly purified                                                                                                                                                                                                                                                 |
| Form                       | Supplied as a liquid in PBS, pH 7.5, 0.05% sodium azide.                                                                                                                                                                                                        |
