| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | BIN1, also known as SH3P9, is a nucleocytoplasmic adaptor protein, one of which was initially identified as MYC-interacting protein with features of a tumor suppressor. This protein interacts with and inhibits the oncogenic activity of the myc oncopr... |
| Molecular Weight           | 50.4                                                                                                                                                                                                                                                          |
