| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Human factor VII is a single chain, vitamin K-dependent, plasma glycoprotein which is synthesized in the liver (1-3). Prior to secretion into the blood, post translational modification by a vitamin K-dependent carboxylase produces 10 g-carboxyglutami... |
| Molecular Weight           | 50                                                                                                                                                                                                                                                            |
| Purity                     | 95% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in 50% glycerol/H2O.                                                                                                                                                                                                                     |
