## Product Datasheet

**MART-1, multiple clones (+2) (Melanoma Antigen Recognized by T-cells 1,  
Melan-A) (BSA & Azide Free), Clone: [0.N.396 + 0.N.397], Mouse,  
Monoclonal  
USB-M2410-12X**

|                            |                                                                                                                                                                                                                                                               |

| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC, IP, WB                                                                                                                                                                                                                                                   |
| Immunogen                  | Recombinant protein corresponding to human MART-1.                                                                                                                                                                                                            |
| Product Description        | MELAN-A/MART-1 is a melanocyte differentiation marker. MELAN-A is expressed by a large proportion of melanoma tumors, both melanotic and amelanotic and by melanoma cell lines. It is present in melanocytes of normal skin and retina, nevi and in more t... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [0.N.396 + 0.N.397]                                                                                                                                                                                                                                           |
| Purity                     | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in 10mM PBS, pH 7.4. Also available with BSA and azide (Cat M2410-12).                                                                                                                                                                   |
