| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Product Description        | A 17-aa peptide sequence, mapping nears the cytoplasmic N-terminus of rat DINE. The amyloid beta-peptide (Ab) of 39 to 43aa (Ab40, Ab42, Ab43) is constitutively produced in brain upon proteolysis of the b-amyloid precursor protein (APP). In the young... |
| Purity                     | Highly purified                                                                                                                                                                                                                                               |
| Form                       | Supplied as a liquid in PBS, pH 7.2                                                                                                                                                                                                                           |
