## Product Datasheet

### **CSTB recombinant monoclonal antibody, clone 11H4, Clone: [11H4], Monoclonal ABN-RAB08436**

|                            |                                                                                      |

| Article Name               | CSTB recombinant monoclonal antibody, clone 11H4, Clone: [11H4],<br>Monoclonal       |
| Biozol Catalog Number      | ABN-RAB08436                                                                         |
| Supplier Catalog Number    | RAB08436                                                                             |
| Alternative Catalog Number | ABN-RAB08436-50                                                                      |
| Manufacturer               | Abnova                                                                               |
| Category                   | Antikörper                                                                           |
| Application                | ELISA, IF                                                                            |
| Species Reactivity         | Human                                                                                |
| Immunogen                  | Original antibody is raised against a synthetic peptide corresponding to human CSTB. |
| Product Description        | Rabbit recombinant monoclonal antibody raised against human CSTB....                 |
| Clonality                  | Monoclonal                                                                           |
| Clone Designation          | [11H4]                                                                               |
| UniProt                    | 1476                                                                                 |
| Buffer                     | In PBS, pH7.4 (150 mM NaCl, 0.02% sodium azide and 50% glycerol)                     |
| Form                       | Liquid                                                                               |
| Target                     | CSTB                                                                                 |

Application Dilute

ELISA  
Immunofluorescence (1:20-1:200)  
The optimal working dilution should be determined by the end user.
