| Article Name               | Anti-CD14 Antibody Picoband Fluoro647 Conjugated, Rabbit, Polyclonal                                                                                                            |
| Biozol Catalog Number      | BOB-PB9847-FLUORO647                                                                                                                                                            |
| Supplier Catalog Number    | PB9847-Fluoro647                                                                                                                                                                |
| Alternative Catalog Number | BOB-PB9847-FLUORO647-100UG                                                                                                                                                      |
| Manufacturer               | Boster Bio                                                                                                                                                                      |
| Host                       | Rabbit                                                                                                                                                                          |
| Category                   | Antikörper                                                                                                                                                                      |
| Application                | FC                                                                                                                                                                              |
| Species Reactivity         | Human                                                                                                                                                                           |
| Immunogen                  | E. coli-derived human CD14 recombinant protein (Position: N65-D327). Human CD14 shares 69.8% and 66.8% amino acid (aa) sequence identity with mouse and rat CD14, respectively. |
| Clonality                  | Polyclonal                                                                                                                                                                      |
| Molecular Weight           | Calculated Molecular Weight: 40076 MW                                                                                                                                           |
| NCBI                       | <a href="#">929</a>                                                                                                                                                             |
| UniProt                    | <a href="#">P08571</a>                                                                                                                                                          |
| Buffer                     | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .                                                                     |
| Purity                     | Immunogen affinity purified.                                                                                                                                                    |

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Form               | Liquid                                                               |
| Target             | Monocyte differentiation antigen CD14                                |
| Application Dilute | Flow Cytometry, Optimal dilutions should be determined by end users. |
