| Product Description        | Boster Bio Anti-SARS-CoV-2 NSP4 Antibody catalog A34000. Tested in ELISA applications. This antibody reacts with Human....                                                                                                                                                    |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                                    |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                                     |
| Molecular Weight           | Observed Molecular Weight: 140 kDa, 130 kDa, 110 kDa. Calculated Molecular Weight: 16693 MW                                                                                                                                                                                   |

|                    |                                                                 |
|--------------------|-----------------------------------------------------------------|
| NCBI               | <a href="#">43740578</a>                                        |
| UniProt            | <a href="#">P0DTC1</a>                                          |
| Buffer             | Each vial contains 4mg Trehalose, 0.9mg NaCl and 0.2mg Na2HPO4. |
| Purity             | Immunogen affinity purified.                                    |
| Form               | Lyophilized                                                     |
| Target             | T-cell surface glycoprotein CD3 zeta chain                      |
| Application Dilute | ELISA, 0.001-0.1µg/ml, Human                                    |
