| Product Description        | Appendix Liver Cirrhosis Lysate...                                                                                                                                                                    |
| Concentration              | 2 mg/mL or better                                                                                                                                                                                     |
| Buffer                     | HEPES pH 7.9, MgCl <sub>2</sub> , KCl, EDTA, Sucrose, Glycerol, Sodium deoxycholate, and NP-40.                                                                                                       |
| Source                     | Diseased. Human. Appendix. Human Appendix tissue. Diseased                                                                                                                                            |
| Form                       | Liquid                                                                                                                                                                                                |
| Application Notes          | Biological Origin: Diseased. Human. Appendix. Human Appendix tissue. Diseased. Application Notes: Appendix lysate is for use in Western blotting, 10 µg to 20 µg per lane is recommended for mini gel |
