## Product Datasheet

### Human B2-glycoprotein 1 (beta2-GP1) antibody IgG ELISA Kit BYT-ORB1496507

Article Name	Human B2-glycoprotein 1 (beta2-GP1) antibody IgG ELISA Kit
Biozol Catalog Number	BYT-ORB1496507
Supplier Catalog Number	orb1496507
Alternative Catalog Number	BYT-ORB1496507-48,BYT-ORB1496507-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human B2-glycoprotein 1 antibody IgG ELISA kit...
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.06 ng/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human beta2-GP1 IgG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human beta2-GP1 IgG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human beta2-GP1 IgG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human beta2-GP1 IgG in the samples is then determined by comparing the OD of the samples to the standard curve
