## Product Datasheet

### General Epinephrine (EPI) ELISA Kit BYT-ORB1806525

Article Name	General Epinephrine (EPI) ELISA Kit
Biozol Catalog Number	BYT-ORB1806525
Supplier Catalog Number	orb1806525
Alternative Catalog Number	BYT-ORB1806525-48,BYT-ORB1806525-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	All
Product Description	General Epinephrine (EPI) ELISA Kit...
Range	31.25-2000pg/mL
Sensitivity	9.74 pg/mL
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids
Target	EPI

Application Notes

Application Notes: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Epinephrine(EPI) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Epinephrine(EPI). Next,Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Epinephrine(EPI) in the samples is then determined by comparing the OD of the samples to the standard curve
