Product Datasheet

Human S100 Calcium Binding Protein B (S100B) Microsample Fast ELISA Kit BYT-ORB1806586

Article Name	Human S100 Calcium Binding Protein B (S100B) Microsample Fast ELISA Kit
Biozol Catalog Number	BYT-ORB1806586
Supplier Catalog Number	orb1806586
Alternative Catalog Number	BYT-ORB1806586-48,BYT-ORB1806586-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human S100 Calcium Binding Protein B (S100B) Microsample Fast ELISA Kit...
Range	31.25-2000pg/mL
Sensitivity	18.75 pg/mL
UniProt	P04271
Form	Ready to use
Samples	cerebrospinal fluid, blood, Urine, amniotic fluid,Sample volume:25µL
Target	S100B

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human S100B. Samples (or Standards) are added to the micro ELISA plate wells and combined with the specific antibody and biotinylated detection antibody specific for Human S100B. Then Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human S100B, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human S100B. You can calculate the concentration of Human S100B in the samples by comparing the OD of the samples to the standard curve
