Human Ribonuclease A3/Eosinophil Cationic Protein (RNASE3/ECP) ELISA Kit BYT-ORB1807233

Article Name	Human Ribonuclease A3/Eosinophil Cationic Protein (RNASE3/ECP) ELISA Kit
Biozol Catalog Number	BYT-ORB1807233
Supplier Catalog Number	orb1807233
Alternative Catalog Number	BYT-ORB1807233-48,BYT-ORB1807233-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human Ribonuclease A3/Eosinophil Cationic Protein (RNASE3/ECP) ELISA Kit...
Range	39.06-2500pg/mL
Sensitivity	13 pg/mL
UniProt	P12724
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	RNASE3

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human RNASE3/ECP. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human RNASE3/ECP and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human RNASE3/ECP, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Human RNASE3/ECP. You can calculate the concentration of Human RNASE3/ECP in the samples by comparing the OD of the samples to the standard curve
