Purity	Anti-Acetyl Cholinesterase is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Goat Serum as well as purified and partially purified Acetyl Cholinesterase [Bovine Erythrocytes]. Cross reactivity against Acetyl Cholinesterase from other sources is unknown.
Form	Liquid (sterile filtered)
Application Dilute	ELISA: 1:5,000 - 1:20,000, IP: 1:100, WB: 1:500 - 1:5,000
Application Notes	Application Notes: Anti-Acetyl Cholinesterase Antibody has been tested by western blot and is suitable to be assayed against 1.0 µg of Acetyl Cholinesterase [Bovine Erythrocytes] in a standard ELISA using Peroxidase conjugated Affinity Purified anti-Goat IgG [H&L] (Rabbit) and (ABTS (2,2-azino-bis-[3-ethylbenthiiazoline-6-sulfonic acid]) as a substrate for 30 minutes at room temperature. A working dilution of 1:1,200 to 1:5,000 of the reconstitution concentration is suggested for this product
