Product Datasheet

JAM A phospho Y280 Antibody, Unconjugated, Rabbit, Polyclonal Preis auf Anfrage BYT-ORB420322

Article Name	JAM A phospho Y280 Antibody, Unconjugated, Rabbit, Polyclonal Preis auf Anfrage
Biozol Catalog Number	BYT-ORB420322
Supplier Catalog Number	orb420322
Alternative Catalog Number	BYT-ORB420322-100
Manufacturer	Biorbyt
Host	Rabbit
Category	Antikörper
Application	ELISA, IF, WB
Species Reactivity	Human
Immunogen	Affinity purified Anti-JAM A pY280 antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to the c-term and phosphorylated at the tyrosine 280 position of Human JAM A protein.
Conjugation	Unconjugated
Product Description	JAM A pY280 antibody...
Clonality	Polyclonal
Concentration	1.02mg/mL
NCBI	058642

Buffer	Preservative: 0.01% (w/v) Sodium Azide. Stabilizer: None, Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Purity	Anti-JAM A pY280 is directed against human JAM A phosphorylated at the tyrosine 280 position. This product is an affinity purified antibody produced by immunoaffinity chromatography using phospho peptide coupled to agarose beads followed by solid phase adsorption(s) against non-phospho peptide to remove any unwanted reactivities. A BLAST analysis was used to suggest reactivity with this protein from human and feline based on 100% homology for the immunogen sequence.
Form	Liquid (sterile filtered)
Application Dilute	ELISA: 5 ug/ml, WB: 1 ug/ml
Application Notes	Application Notes: This affinity purified antibody has been tested for use in ELISA, IF, and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band ~ 32.5 kDa in size corresponding to JAM A by western blotting in the appropriate cell lysate or extract
