Product Datasheet

Human p-cresol ELISA Kit BYT-ORB2667435

Article Name	Human p-cresol ELISA Kit
Biozol Catalog Number	BYT-ORB2667435
Supplier Catalog Number	orb2667435
Alternative Catalog Number	BYT-ORB2667435-48,BYT-ORB2667435-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human p-cresol ELISA Kit...
Range	15.63-1000 pg/mL
Sensitivity	4.8 pg/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human p-cresol. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human p-cresol. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human p-cresol, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human p-cresol in the samples is then determined by comparing the OD of the samples to the standard curve
