Product Datasheet

Horse Cartilage Oligomeric Matrix Protein (COMP) ELISA Kit BYT-ORB2667442

Article Name	Horse Cartilage Oligomeric Matrix Protein (COMP) ELISA Kit
Biozol Catalog Number	BYT-ORB2667442
Supplier Catalog Number	orb2667442
Alternative Catalog Number	BYT-ORB2667442-48,BYT-ORB2667442-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Equine
Product Description	Horse Cartilage Oligomeric Matrix Protein (COMP) ELISA Kit...
Range	3.13-200 ng/mL
Sensitivity	1.12 ng/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: standard: 200 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Horse COMP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Horse COMP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Horse COMP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Horse COMP in the samples is then determined by comparing the OD of the samples to the standard curve
