Product Datasheet

Mouse Mesencephalic Astrocyte Derived Neurotrophic Factor (MANF) ELISA Kit BYT-ORB2667502

Article Name	Mouse Mesencephalic Astrocyte Derived Neurotrophic Factor (MANF) ELISA Kit
Biozol Catalog Number	BYT-ORB2667502
Supplier Catalog Number	orb2667502
Alternative Catalog Number	BYT-ORB2667502-48,BYT-ORB2667502-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Mouse
Product Description	Mouse Mesencephalic Astrocyte Derived Neurotrophic Factor (MANF) ELISA Kit...
Range	0.16-10 ng/mL
Sensitivity	0.047 ng/mL
UniProt	Q9CXI5
Samples	Serum, plasma, tissue homogenates and other biological fluids

Application Notes

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse MANF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse MANF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse MANF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse MANF in the samples is then determined by comparing the OD of the samples to the standard curve
