| Product Description        | Recombinant Human CD62P/SELP Protein, C-Fc is produced in Mammalian Cells and supplied in lyophilized form. The protein includes the regions of Met1-Ala771(Leu640Val) and carries the C-Fc tag. With a molecular weight of 110.96 kDa, it is suitable for... |
| Molecular Weight           | 110.96 kDa                                                                                                                                                                                                                                                    |
| UniProt                    | <a href="#">P16109</a>                                                                                                                                                                                                                                        |
| Buffer                     | Lyophilized from a solution in PBS pH 7.4, 1 mM EDTA, 4% Trehalose, 1% Mannitol.                                                                                                                                                                              |
