## Product Datasheet

### **Human RANKL(Receptor Activator of Nuclear factor-kB Ligand) Microsample ELISA Kit BYT-ORB2997267**

Article Name	Human RANKL(Receptor Activator of Nuclear factor-kB Ligand) Microsample ELISA Kit
Biozol Catalog Number	BYT-ORB2997267
Supplier Catalog Number	orb2997267
Alternative Catalog Number	BYT-ORB2997267-48,BYT-ORB2997267-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human RANKL(Receptor Activator of Nuclear factor-kB Ligand) Microsample ELISA Kit...
Range	78.13-5000 pg/mL
Sensitivity	22.9 pg/mL
UniProt	<a href="#">O14788</a>
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Application Notes: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human RANKL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human RANKL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human RANKL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human RANKL in the samples is then determined by comparing the OD of the samples to the standard curve
