| Manufacturer               | Biorbyt                                                                                                                         |
| Category                   | Proteine/Peptide                                                                                                                |
| Species Reactivity         | Human                                                                                                                           |
| Conjugation                | Unconjugated                                                                                                                    |
| Product Description        | Human IL-1 RII, His Tag is expressed from human 293 cells (HEK293). It contains AA Phe 14 - Glu 343 (Accession NP_004624.1).... |
| Molecular Weight           | 38.9 kDa                                                                                                                        |
| NCBI                       | <a href="#">004624</a>                                                                                                          |
| Buffer                     | PBS, pH 7.4                                                                                                                     |
| Purity                     | 98%                                                                                                                             |
| Form                       | Powder                                                                                                                          |
| Target                     | IL-1 RII                                                                                                                        |

|                   |                                                                                                                                                                                                                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes | Application Notes: This protein carries a polyhistidine tag at the C-terminus. The protein has a calculated MW of 38.9 kDa. The protein migrates as 50-60 kDa when calibrated against Star Ribbon Pre-stained Protein Marker under reducing (R) condition (SDS-PAGE) due to glycosylation |
