Application Notes	Application Notes: Peptide ELISA: antibody detection limit dilution 1:64000. Western Blot: Approx 37kDa band observed in Mouse Heart lysates and no 37kDa in the KO lysates (calculated MW of 33.2kDa according to mouse NP_062636.2 and human NP_004156.1). There is some non-specific background, we call for caution when used for other assays than Western blot. In transfected HEK293 transiently expressing Mouse Rrad (HA tagged), a band of approx. 45kDa is observed. No bands are observed in transfected HEK293 transiently expressing related Mouse GTPases. Recommended concentration: 0.5-2µg/mL
